

We are a group of students from Lithuania who study Floristics. We are very happy to write a letter to you.

We think that this time at school is the best time in our life and we'll remember it forever. sometimes we break school rules - it's very funny. Then we see teachers' angry faces and sit silently in our desks. We do a lot of mistakes. But it's our youth... we fall in love for many times, we change our appearance quite often, we don't think seriously about our future. Of course, when we finish school we expect to fulfill our dreams - to find a good job, to have a nice family, a big house and a car. Everybody wants to be happy, to smile, to feel love and to love. We have to do a lot of things after school. Most of us go to diving lessons, some of us go to work. On weekends we leave our hostel and go home. sometimes we stay in the hostel and watch an interesting film with a cup of tea. We enjoy baking pies or biscuits filled with cream. sometimes we want to escape from the routine. We have many hobbies - most of us like extreme sports such as paragliding, diving and climbing. It's challenging. We'd like to meet you one day.

Love,
F-10

Hello world

Lithuania great of it's free time.

When we back from school we play our music library on maximum sound. Then we relax.

When we go to the shower we play our ipod's and we are singing there.

Sometimes after school we play football, basketball
and we aren't looking what the weather conditions
At the night we are going to the night clubs to listen
to music and dance.
