

Hello,

my name is Justina Miliūtė, I am 18 years old and I am studying in Seirijai Antanas Žmuidzinavičius gymnasium in my last year. When I first knew about Erasmus, I thought while studying in University I will really go for it. I was always interested in going to other country, especially when this year our gymnasium had guests from Vilnius University: students of Erasmus program. They came from Germany, Ukraine, Latvia, Canada and France to see our beautiful country. I am glad we had chance to spend a good time with them. It was extraordinary, something we never had at our gymnasium and it seems everyone really liked that. Thanks for coming

I feel that this project is really useful for each and every student in all ways. I am feeling jealous of them because I also dream about going to study abroad with Erasmus. Most of those students, who came to our gymnasium this year, to question „Do you like being in Lithuania“ answered with a short and clear „Yes“. It really makes me happy hearing these words about my country. Especially they like our capital Vilnius. Obviously, lots of legends and rich history – that is what makes it so special and interesting for foreigners. I personally admire my country too, but I would love to go abroad, to countries such as Russia, Great Britain and Italy. Though I know Russian and English quite well, I would not mind learning Italian too. These are the reasons why I want to visit those countries.

My wish for all students of Erasmus would be all the best in your studies and whenever you have opportunity to go somewhere abroad and to see something new, never let it go. May be it will be the most important chance of your life. Good luck.

Justina Miliūtė, Seirijai Gymnasium.
